

# Who is DEVnet?

In a digital business world business and IT strategy are no longer separate.

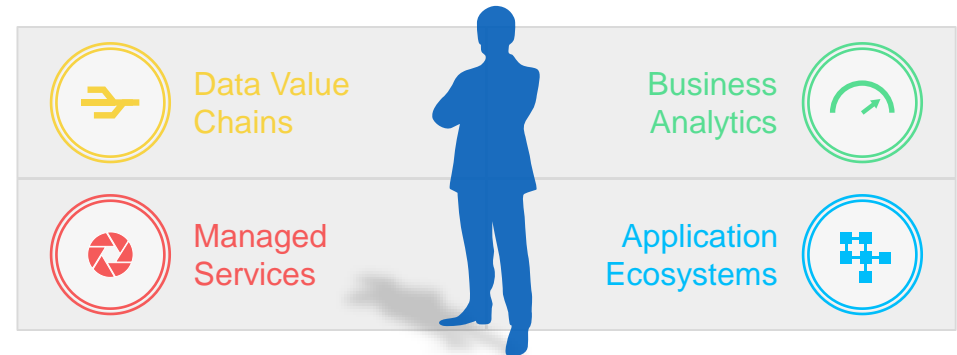

## DEVnet facts

1998 Founding	137 Experts
3 Locations	20% Annual Growth

## DEVnet's business

- Specialists in technology driven business transformation
- Expert consultants to leading businesses in the financial, commodities and energy markets
- Focused on banking, energy, insurance, asset management and exchange services sectors
- Four key service areas

## Technology, the Driving Force in Business Transformations

- Intelligent data organisation along the entire value chain of the enterprise
- Developing real-time capable analytic methods and applications for business and risk management
- Acquisition of technology-orientated technical sub-processes and IT Services
- Development of integrative modular application and service platforms for complex business tasks and processes.

# Where does DEVnet support you?

Transparency requirements under the Market Abuse Regulation (MAR) and the Regulation on wholesale energy market integrity and transparency (REMIT)

## Requirements

- Large emitters of Greenhouse gases (GHG) - above 6-million tCO<sub>2</sub>eq per year on a group level - in the EU Emission trading scheme (EU ETS) will have to timely publish capacity and utilization rate of installations under the upcoming implementation of the Market Abuse Regulation (MAR) from mid-2016.
- Insider information under REMIT shall be published through web feeds (recommended rss or atom) in the XML formats described in Annex VII of the 30th of September version of ACER's - REMIT Manual of Procedure on transaction data, fundamental data and inside information reporting from 1<sup>st</sup> of January 2017 onwards. The simple publication of Insider-Information on a company's own website will as a rule not be sufficient for the future.

## Implementation

- DEVnet supports clients in the implementation of these legal requirements and has qualified itself as Certified Service Provider (Transparency) at EEX for this purpose.
